SUMMARY

Fresh graduate with a Bachelor's degree in Informatics (S.Kom) from Universitas AMIKOM Yogyakarta, specializing in web development. Skilled in developing modern, responsive, and user friendly websites that meet professional standards. Possesses a solid portfolio that demonstrates consistency and quality of work. Highly motivated to contribute as a Frontend Developer by delivering creative solutions, high quality results, and full dedication to supporting the company's success.

EXPERIENCE

Fullstack Web Developer (Internship)

PT. GIT Solution   October (2024) – December (2024)

- Developed and maintained web applications by working on both frontend and backend components.
- Implemented responsive and user-friendly interfaces while ensuring smooth integration with backend services.
- Collaborated with the team in debugging, testing, and deploying features to meet project requirements and deadlines.
- Applied best practices in code quality and version control to support scalable development.

Freelance Web Developer

Self-Employed (Remote)   2025 – Present

- Built and deployed multiple portfolio and company profile websites using Next.js and TailwindCSS.
- Collaborated with clients to transform business needs into functional and user-friendly websites.
- Optimized website structure and performance for faster loading and better responsiveness.
